

Migration as a Service

Cloud migration made easy, automated, and effortless.

SurPaaS® MaaS™ (Migration as a Service) empowers MSPs, CSPs and SIs to offer an elevated level of Cloud migration service.

Quickly set up and customize MaaS™ and start analyzing and migrating applications to the Cloud. You can offer MaaS™ as your private-labeled Cloud Migration Service.

01

Provision Your Account on SurPaaS® MaaS™

02

Private-Label as Your Own Cloud Migration Service

03

Deliver State-of-the-Art App Discovery, Workload Analysis, Optimization and Migration Capabilities

04

Accelerate and Increase Cloud Migration Rate; and Related Revenue Stream

Business Challenges:

- » It is cumbersome to manually discover, profile and analyze your customers' applications for an efficient Cloud migration.
- » It is time-consuming to manually migrate your customers' applications to their preferred public or private Cloud.

Solutions:

- ✓ Using MaaS™, confidently and quickly address the above challenges.
- ✓ Leverage Corent's technical and partner/customer support team to accelerate the success of your Cloud Migration Practice.
